

On November 9<sup>th</sup>, the last RowBobRow, Cancer Survivor Row, will get underway from Pensacola Beach, Fl. to Carrabelle, Fl. 175 miles. This will complete a vision that was set by Bob & Sue Lynch, ten years ago, of rowing the main waterways of Florida. The goal of raising people's awareness of Waldenstroms Macroglobulinemia and raising money for cancer research will have been accomplished. However, it's not over till it's over. That means there is still work to do. Just like the elections, the next 4 weeks is where we will shine.

We are once again asking for your help, not only to generously donate to IWMMF but in addition, we are asking each of you to send a mass e-mail to all your friends and let them know that even in these trying times we need to help each other. We have a wonderful website they can visit, (thank you Susan Moran) and at this site they can get to know us and what we are doing, they can donate, purchase the new World Peace through Inner Peace tee shirt and also purchase the new DVD documentary "Curing Cancer One Stroke at a Time". We are so proud of our friend Cork Friedman who had the vision of this film and the creativity and expertise to make it happen. This film is an example of what can happen when we get out of the way and let God be God. The critics love the film and we have received word from friends on how it has already given strength to folks dealing with life's challenges.

We want you to consider buying more than one and giving them as gifts that will keep on giving. Our goal is to spread this film all over the world. Discussion questions have also been developed so you can use this film to learn more about yourself as well as your friends. We see friends sitting down after dinner and sharing this film experience and then discussing some thought provoking questions on how you would handle this life experience.

Sue and I love each of you and are so grateful and honored that you have chosen to share the last ten years with us. There will be new adventures in the future, just not long distance rows.

Paul Newman once said he was no longer interested in how much money he could make but rather how much he could give away.. We are carrying that philosophy forward. Proceeds from all our efforts will continue to go to cancer research and promoting peace throughout the world.
